THE NEW BMW 2 SERIES COUPÉ. ORIGINAL BMW ACCESSORIES.

ENTER A WORLD OF ENDLESS POSSIBILITIES.

FORMED FOR THE NON-CONFORMIST.

The new BMW 2 Series Coupé is the expression of unrestrained and spirited passion. This is clear to see in the striking and powerful impression it makes on the road. You, too, can make your own distinctive contribution here. Whether it is for the exterior and interior, for communication and information or luggage and transport solutions – with Original BMW Accessories, you can give the BMW 2 Series Coupé your own unique character.

1 19" BMW M Performance light alloy wheels Double-spoke 624 M

The 19" BMW M Performance light alloy wheels Double-spoke 624 M are Biolour matt black, forged and milled and feature the four-colour M logo.

1 Racing cycle holder, lockable

With the lockable racing bicycle holder for all BMW roof base support systems, up to four bicycles can be transported. It is made of quality materials and can be mounted without tools. Bicycles are attached with a clamping system. Additionally, the bicycle is attached to the support frame at the front fork and other points. For the transport of the front wheels, the front wheel holder (pictured) is required which is available separately. Suitable for bicycles with quick-release fasteners on the front wheel.

2 All-weather floor mats, Sport

The Sport all-weather floor mats protect the driver's and front passenger's footwells from dirt and wear. The raised edges of both black mats are in red. Water flows into the grooves so shoes stay dry while underside fastenings ensure secure attachment.

3 19" BMW M Performance light alloy wheels Double-spoke 624 M

The 19" light alloy wheels Double-spoke 624 M are forged, milled and polished and feature the four-colour M logo.

4 Travel & Comfort System clothes hanger

The Travel & Comfort system clothes hanger in an attractive BMW design allows for the hanging of clothes on the rear side of the backrest. Plug-in connectors make it easy to attach to the base support (required). The hanger can also be used outside of the car (hotel function).

5 Luggage compartment mat, Sport

With its red accents, the Sport luggage compartment mat is perfectly suited to the Sport Line. Its raised edging protects against dirt, moisture and wear. It is made of

washable material and features side pockets for small objects. Because it is perfectly fitted to the space, it does not block the fastening points.

6 Group 1 BMW Junior Seat with ISOFIX

Together with the ISOFIX base, the Group 1 BMW Junior Seat in black/blue is suitable for children from approx. 10 months to 3.5 years old (approx. 9–18kg). Patented air pads provide increased side impact protection for the head. The seat shell can be positioned facing forwards and backwards on the ISOFIX base. Other versions are also available for older age groups.

7 BMW Click & Drive system

The BMW Click & Drive system is a holder for Apple and Samsung smartphones, as well as for the BMW Navigation System Portable. The system is attached to the windscreen with a removable adhesive pad. Special clasps (also available separately) allow the BMW Click & Drive system to be perfectly fitted for different devices. The integrated USB port means the device can be charged in the car. The Samsung holder reacts to the NFC (Near Field Communication) chip in the smartphone and automatically activates the BMW Wireless app when the phone is placed in the holder.

8 Snap-in adapter

The snap-in adapter is a docking system that allows mobile phones from manufacturers such as Apple, Samsung, Nokia, Motorola and others to be securely stored and quickly charged. For optimal network reception, the mobile phone is connected to the car's external antenna via the snap-in adapter. Depending on the vehicle and its equipment, Music, Media and Connect snap-in adapters are available. With these adapters, music stored on the mobile phone can be played over the car speakers. They also enable convenient operation via the iDrive Controller, the multifunction buttons on the steering wheel or the radio.

9 USB adapter

The USB adapter connects an Apple iPod™ or iPhone™ with the vehicle so that stored music can be played. This also charges the device. The system can be operated via the iDrive Controller, multifunction buttons on the steering wheel or the radio. The adapter has a full metal connector and is particularly resilient.

Key case, M Sport (not pictured)

The BMW M Sport key case in black/blue M Sport design combines high quality leather with innovative metal detailing and perfectly suits the dynamic character of the vehicle. The key firmly attaches to the case, is protected from scratches and can be easily unscrewed.

EQUIPPED WITH THE BEST IDEAS.

Sheer
Driving Pleasure

PURE POWER, PERFECTLY DEFINED.

BMW M Performance Parts are the result of many years of BMW motor racing know-how and have been closely developed with BMW M GmbH. Each component goes through an intense development and manufacturing process, so uncompromising sportiness is consistently realised every time.

This is sportiness, of course, that you can also experience. The black front grille and ultra-lightweight carbon wing mirror caps, for example, emphasise the aggressively dynamic look of your BMW 2 Series Coupé. The 19-inch light alloy wheels give even more self-assured, solidly planted poise and an individual look. Whether it's for aerodynamics, the chassis, the drivetrain or the cockpit, you can look forward to something incomparable – authentic motor sport genes in your BMW 2 Series Coupé.

➤ For detailed information about the entire BMW M Performance Parts range, visit the BMW website.

Your BMW Service Centre will be happy to advise.
